

Covid-19 Specific Activities Initiated By Department Of Psychiatry, LGBRIMH

1. Since the start of the pandemic, we have been giving information to patients and their caregivers about basic protective measures against Novel Corona Virus (Covid-19). These include – how to maintain hand hygiene, how to practice respiratory hygiene, how to maintain social distance, avoid touching eyes, nose and mouth, how to wear mask or face cover, when and where to seek medical care and how to stay informed.
2. We are regularly informing patients and their caregivers about the signs and symptoms of Covid-19 infection.
3. Our department also started Tele-medicine services for patients. For the last 2 months, patients and their caregivers are availing this opportunity from our institute.
4. On 7th April, 2020 the department organized an Online Academic Discussion on the topic QTc Interval: Psychotropics and Covid-19 Medication.
5. With the help of hospital management authority, the department is running special OPD for those patients who are coming from Covid-19 hotspot areas.
